

# Land Trust Accountability

2018-19 School LAND Trust Report  
Amount Allocated: \$151,751

The use of school LAND Trust money is determined by the Lehi High School Community Council (for more information about School Community Council - SCC, visit <https://goo.gl/mcW3SA>), and it is based on the School Improvement Plan.

The 2018-2019 School Improvement Plan focused on raising the achievement level of all students. The areas of focus for the School Improvement Plan were to increase student performance in Math, English and Science, and maintain graduation rate of 93%.

Lehi High used LAND Trust funds to support academic needs in the following ways:

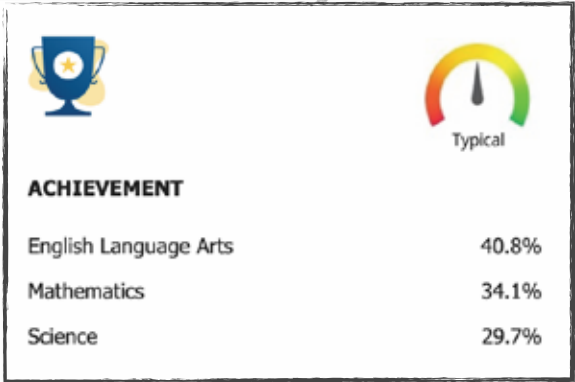

- Funded student advocates and data specialists to monitor student progress.
- Funded math lab class and intervention aides.
- Funded summer collaboration for science and math teachers.
- Funded Intern English teacher to reduce class size.

Teachers at Lehi High continue to work to improve academic performance and growth in all subjects.

Student testing measures will be compared, disseminated, and used to guide decisions with LAND Trust money. With our continued efforts as a School Community Council, LHS has maintained graduation rates, developed teacher learning, and improved student academic performance and student achievement.

*Inspiring a strong community of  
Pioneers to higher levels of learning.*
