MISSION

Provide our students with alternative educational curriculum and resources to facilitate student success through the integration of Alpine School District Frameworks in their path to graduation.

VISION

- We believe educational services encompass a caring community of school counselors, administrators, teachers, support staff, parents, and students.
- We believe students experience success and academic achievement by maximizing their connection to all educational services.
- We believe digital learning, for the purpose of credit recovery, is best achieved in a classroom environment with a caring adult advocating for each student.
- We believe digital learning for the purpose of advancement or remediation should be readily available and easily accessible.

VALUES

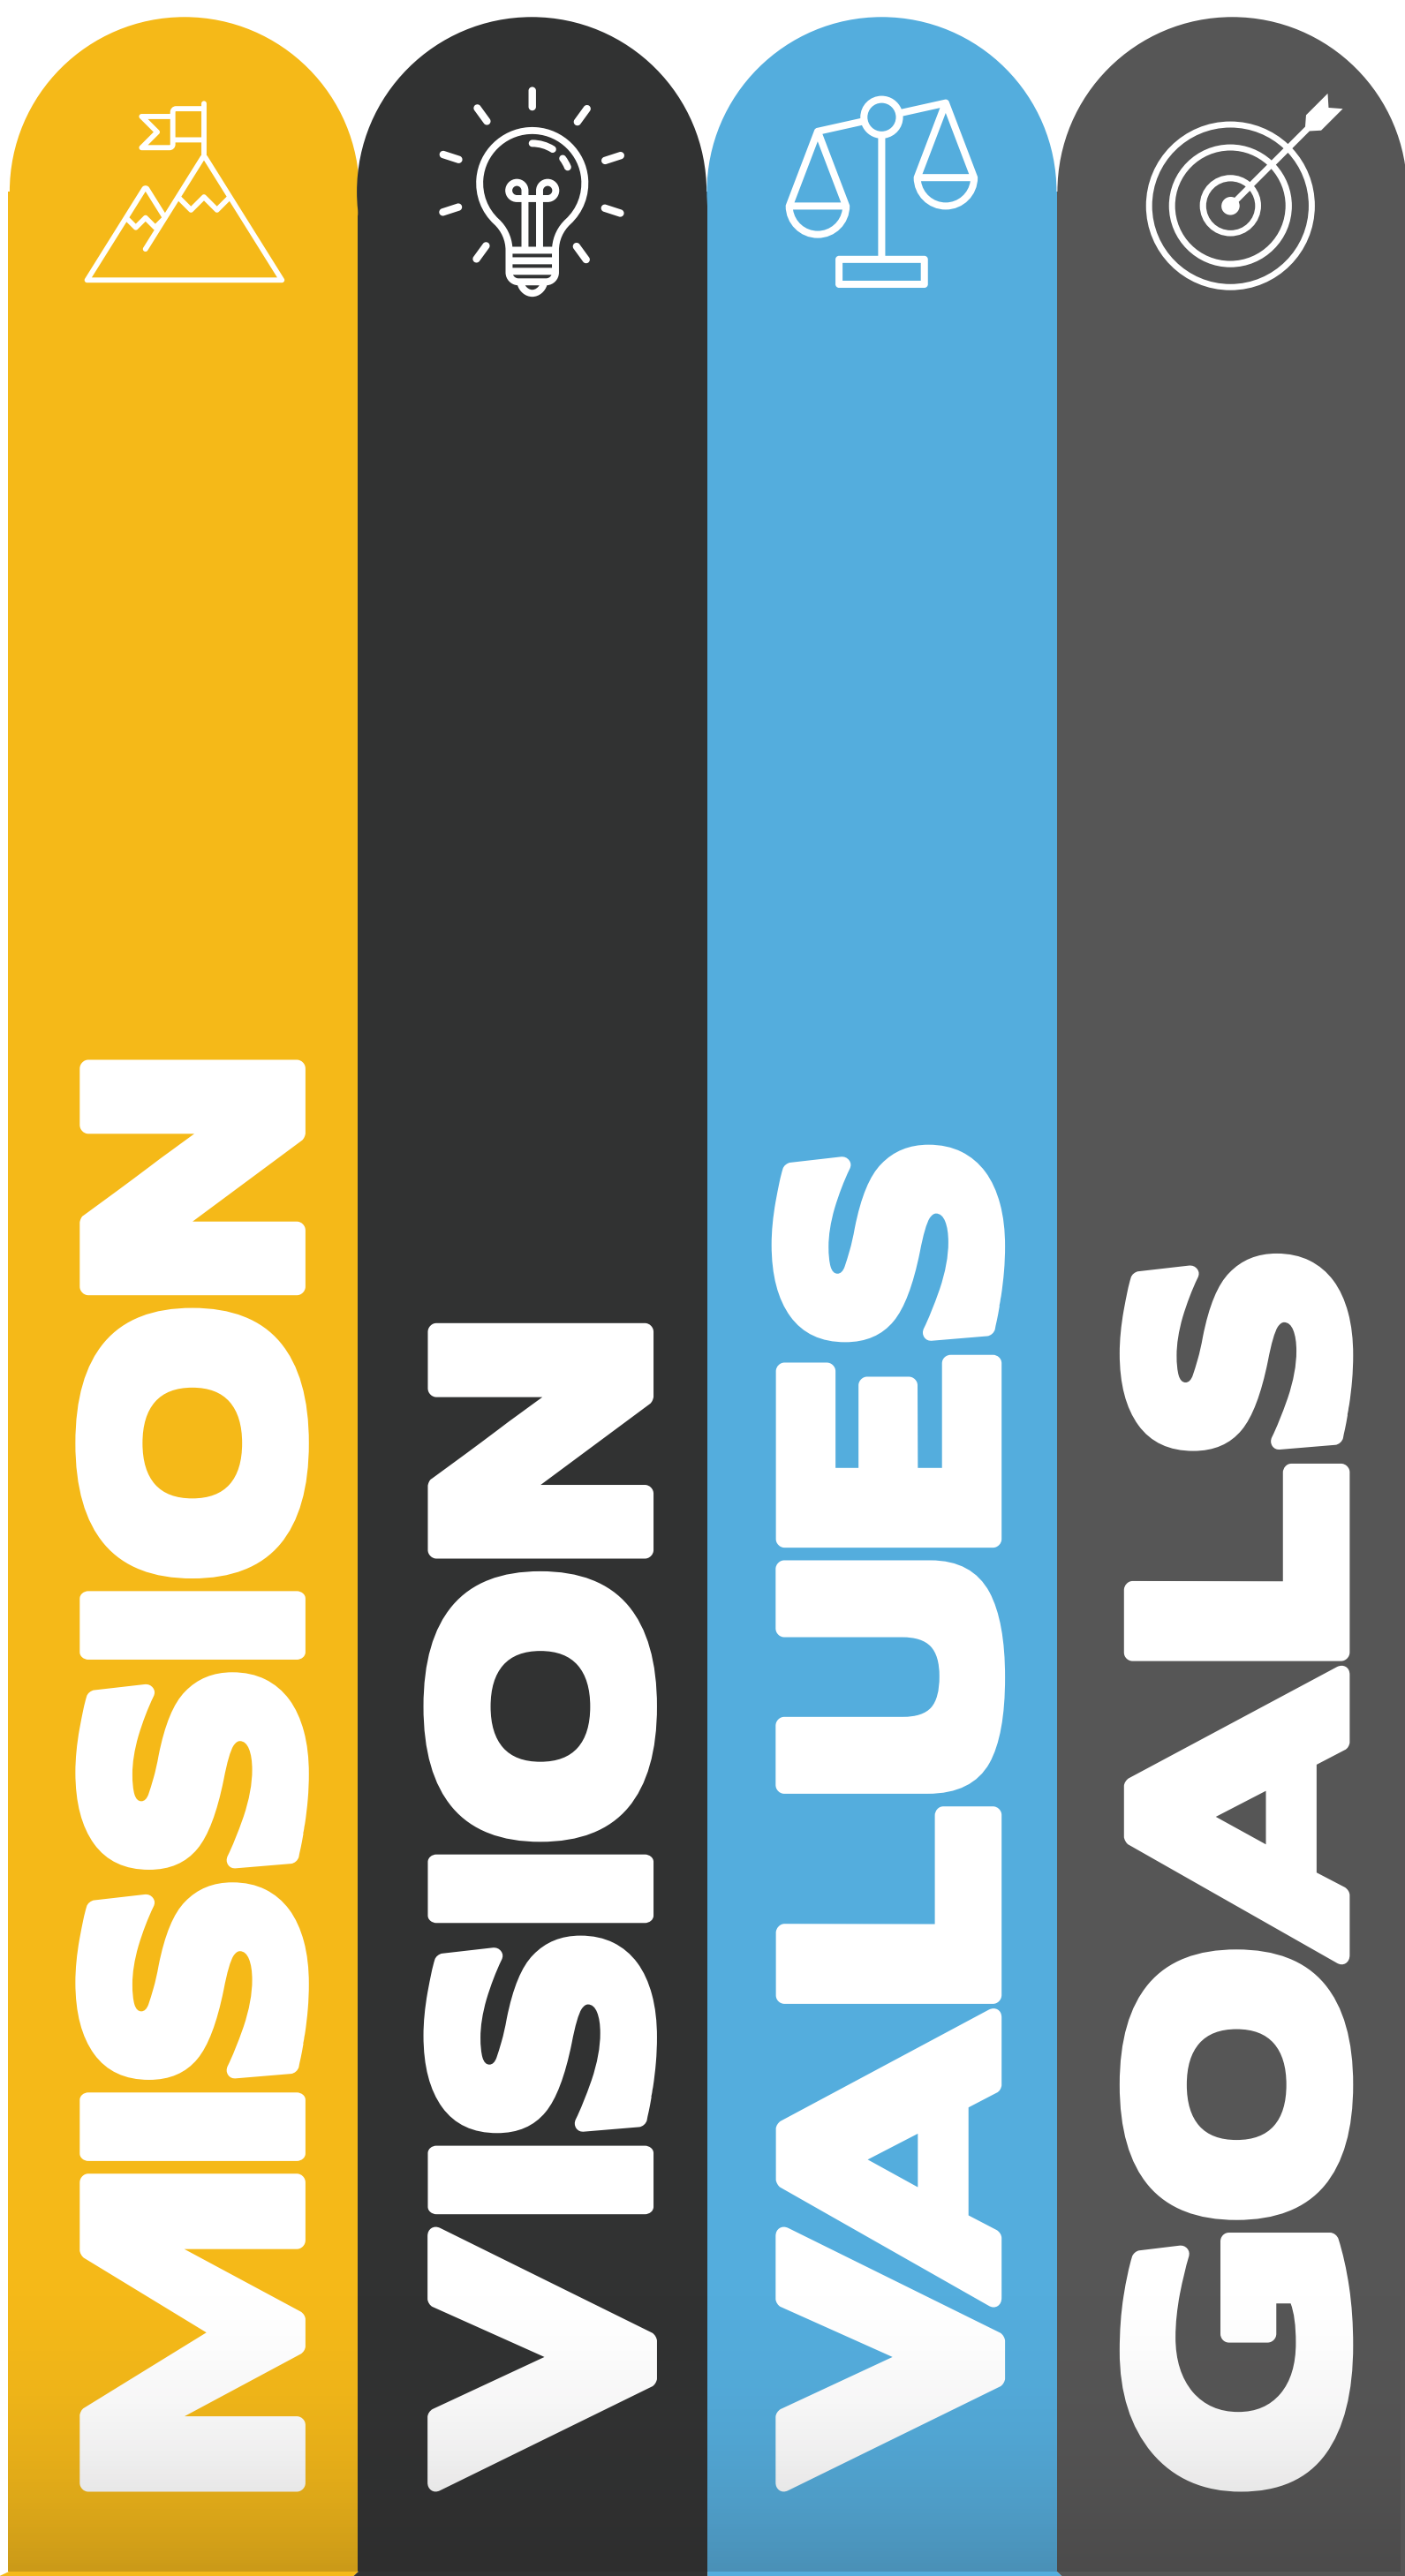

- Collaborative Environment
- Continuous Improvement
- Equitable Education Access
- Integrity
- Responsible Citizens
- Student Support Services

GOALS

- Develop a safe and effective digital learning environment to support students.
- Develop effective digital curriculum that follows Utah State Core, clearly outlines student learning objectives, and incorporates effective assessments using data-driven instruction.
- Develop an effective team of online teachers and staff who thrive in a collaborative environment focused on student learning.
- Develop digital curriculum that supports and encourages continuous improvement by integrating the Alpine School District Frameworks.
