

Triangle Congruence
Geometry

Name the corresponding parts for each pair of congruent triangles.

- 1) $\triangle ABC \cong \triangle XYZ$ 2) $\triangle EFG \cong \triangle JKL$ 3) $\triangle MNP \cong \triangle QRS$ 4) $\triangle TVW \cong \triangle XYZ$

Name the corresponding parts in each pair of congruent triangles, and make a congruence statement..

Given some corresponding parts in two congruent triangles, make a congruence statement about the triangles.

- 9) $\angle C \cong \angle Q$, $\overline{BD} \cong \overline{RT}$, $\angle D \cong \angle T$, $\overline{CD} \cong \overline{QT}$ 10) $\overline{KH} \cong \overline{YX}$, $\angle H \cong \angle X$, $\angle J \cong \angle Z$, $\overline{KJ} \cong \overline{YZ}$

11) $\triangle FGH \cong \triangle TRQ$. Which of the following is also a true statement?

- A) $\triangle FGH \cong \triangle QTR$ B) $\angle G \cong \angle Q$ C) $\overline{FH} \cong \overline{TQ}$ D) $\triangle FHG \cong \triangle TRQ$

12) $\triangle JMK \cong \triangle ZXY$. Which of the following is also a true statement?

- A) $\angle J \cong \angle Y$ B) $\overline{JM} \cong \overline{XY}$ C) $\triangle JMK \cong \triangle YXZ$ D) $\triangle MKJ \cong \triangle XYZ$

What information is shown in each drawing?
