MOUNTAIN VIEW HIGH SCHOOL

STAKEHOLDER REPORT

2016-2017

MVHS BRUINS ENGAGE, ACHIEVE, AND CONTRIBUTE

Principal David H. Smith encourages Mountain View students to make the most of their various high school opportunities by fully engaging, pushing for high achievement, and seeking opportunities to serve each other and contribute to the Mountain View culture.

What does it mean for students to engage? Be involved in the Bruin Community through participation in music, dance, performance arts, sports or other clubs. Be present in class physically and mentally, by being inquisitive and participating. As your principal, I want to see every student involved in an activity related to music, dance, performance arts, sports, or one of our many clubs.

What does it mean for students to achieve? Excel in your classes, and in all of the school-wide activities that you participate in. Believe that you can accomplish great things! Take challenging classes. Push yourself by setting goals in all of your activities and work hard to accomplish them. Remember that nothing great comes easy. I want to see every senior graduate! I want every student to take a college level course, from our AP Classes, Distance Learning, or Concurrent Enrollment courses.

What does it mean for students to contribute? Contribute to the success of others! Encourage your peers to engage and achieve. You don't graduate on your own. Think about all the people in your life that help you get to where you want to go in life. Be one of those people for those around you! Find ways to serve others. We want you to succeed so that you can put yourself in a position to bless the lives of those around you, beginning with your family, friends, and community.

As your principal, I want you to represent MVHS with class and pride! Encourage your peers to engage in our school community and to achieve great things. Whenever you put on those Bruin colors, know that you are representing generations of Bruins who have gone on to accomplish great things. Add to that Bruin Legacy.
