

Trigonometry B5

Alg 2

Find the trigonometric ratios using the information given. Give the measure of each acute angle.

2) $\tan A = 85/132$ $\cos A =$ $\tan C =$ $m\angle A =$ $m\angle C =$

3) $\sin C = 54/71$ $\tan A =$ $\sin A =$ $m\angle A =$ $m\angle C =$

4) $\cos A = 13/24$ $\cos A =$ $\cos C =$ $m\angle A =$ $m\angle C =$

Use the information given to solve the following triangles.

Use the given information to find the measures of the acute angles. (Use $\triangle ABC$.)

5) $c = 79, b = 64$

16) $b = 100, a = 77$
