

Social Media Resources - Scholarships

Best way to use Twitter for scholarship searching:

Use Twitter's "advance search" function at <http://search.twitter.com> and search for keywords and hashtags. For example, if you want to find a scholarship for a student looking to go into engineering, search for #scholarships and #engineering in the search field. Just always be sure to check and make sure that any scholarships you find are valid. Twitter is full of great information, but it's also full of spam and scams. Email us at outreach@utahsbr.edu if you'd like us to double check a scholarship's validity for you.
