G Suite

## A Guide to Download Your Google School Content

Your School Account → Your Stuff → Take It With You

Student Google Drive files are not accessible after graduation or after a student leaves the district.

School G Suite accounts are closed when you graduate or transfer to a different district. This means that you will no longer have access to your G Suite files unless you take them with you.

Download your data from all G Suite products

Export a downloadable archive with a copy of your data from your school Google resources.

- Follow the onscreen instructions to create a downloadable archive of your data that you can later upload to a personal Google Account.
- Due to security restrictions, you should follow the instructions to create a download link via email, or create a one time archive onto a personal computer or thumb drive.
